Graphite Metallizing Corporation proudly announces that NSF International has certified grades of GRAPHALLOY® material for use in municipal well pumps and water treatment plant applications. These GRAPHALLOY grades are certified to NSF/ANSI Standard 61—"Drinking Water System Components - Health Effects" and approved in the category for Multiple Water Contact Materials up to 180° F.

GRAPHALLOY Grade GM 695.3
GRAPHALLOY Grade GM 696.3

NSF Certification is the result of Graphite Metallizing’s rigorous product testing to ensure the highest quality GRAPHALLOY products for the market.
